

## **Dog-On-It Agility Club Calendar!**

**This is a group calendar that will help you to determine when fields are open.**

*Anyone can book as long as these guidelines are followed*

DOI now uses TimeTree to manage the field calendar. Download the App on your phone.

You can add the DOI calendar to your app by going to this url: <https://timetr.ee/dl/pcs>

\*If anyone has trouble adding the calendar to their phone, you can always VIEW it on our website (dogonitagility.com) under the menu Field Calendar.

Guidelines:

1. To book the field for a class, league, at home event, etc, contact Harmony Hardy using the calendar email - [dogonitcalendar@gmail.com](mailto:dogonitcalendar@gmail.com)
2. FIELD 1 = the eastern field, size 100 x 110  
FIELD 2 = the western field, size 100 x 120
3. Some bookings will show the field in use but allow you to still use it to practice as long as you do not move equipment. This is usually because the course is set for an early morning class or league event. This will show on the calendar as well as a sign that is left on the field.
4. Similarly, if the field is cleared for mowing or a trial, you can use the field but must return all equipment where you found it and leave the field clear. This will show on the calendar as well as a sign that is left on the field.
5. Instructors or groups (league groups etc.) that book the field – If your plans change, please email Harmony Hardy at [dogonitcalendar@gmail.com](mailto:dogonitcalendar@gmail.com) so she can remove the event AND email the DOI group that the field is now available.
6. Booking the field should mostly be for classes, seminars, show prep, shows, and Agility League groups. These are events that require specific set ups that can't be altered and groups working under a time restraint.
7. Be courteous to each other!!
